October 2016

LIHEAP Open Application

The Low-Income Home Energy Assistance Program (LIHEAP) will be accepting applications starting Tuesday, November 1, 2016 through March 31, 2017.

LIHEAP can assist low-income families with paying their heating bills by sending a cash grant directly to the utility company. There is also a crisis grant for households in immediate danger of being without heat.

You can apply for the LIHEAP benefits online by using the COMPASS website, <https://www.compass.state.pa.us/Compass.Web/public/cmphone>, which is an online application for Pennsylvanians to apply for many health and human service programs.

If you have any questions about the LIHEAP grant please call the Chester County Assistance Office at (610) 466-1000.
