The new Brandywine Creek Greenway website features news and updates on key projects that are actively underway in the 25 partner municipalities. Featured projects include:

- Mill Trail
- Brandywine Trail
- Plum Run Trail
- High Trail
- Walkable Chadds Ford
- East-West Trail
- Northern Struble Trail
- Brandywine Conservancy & Museum of Art Campus Trails.

If you would like to have a project featured on the BCG website, contact sfleming@brandywine.org. Check the website often for project updates in your area!

5 New Informational Videos

Five new informational videos highlight important aspects of the Greenway. This month we feature **Improving Water Quality**.

The headwaters of the Brandywine Creek are being preserved to protect water quality in the Brandywine and improve drinking water for the City of Wilmington. Farmers in Honey Brook, PA are partnering with the Township, Chester County, and Brandywine Conservancy to preserve their farms with agricultural easements and to implement best management practices on their land.

Save the Date!

Chadds Ford Township Supervisors' Chairman Keith Klaver, in the blue sweater, reviews a concept map showing potential trails in Chadds Ford Village as part of a brainstorming session. He said he must to work with the Pennsylvania Department of Transportation to reduce the speed limit on Route 1.

Greenway liaisons and partners are invited to attend one of three regional **Roundtable Lunch Meetings**. The purpose is to hear partner updates on existing projects and to identify opportunities for future collaborations. Lunch will be provided.

Northern Region

Tuesday, April 4th, 12:30-1:30pm
Wallace Township Building

Central Region

Friday, April 7th, 12:30-1:30pm
East Caln Township Building
